## NZCC Skill-at-Arms

This one is for the Army Cadets and sees them practising their skills as a team at their unit, before entering a team to compete against other units in the regional competition.

The Regional Skill-at-Arms competition focuses on skills such as navigation, marksmanship, drill, first aid and fitness .

The team that wins the regional competition will go on to face the winning teams from the other two regions in the Skill-at-Arms Competition where their skills are tested to a higher level, and a few activities are planned for the cadets that they haven't had the opportunity to train for to see how they adapt as a team.
